

Shishir Kumar Acharya

I, Shri Shishir Kumar Acharya, have Superannuated from Rourkela Steel Plant on 31st December, 2015. as Executive Director (Projects) after completion 38 years of service in the Rourkela Steel Plant and Bokaro Steel Plant. After completion of my graduation in Mechanical Engineering from Regional Engineering College in 1977. I joined the MTech.(I.O) in the field of Design and Production of Heavy Machines with special emphasis to steel plant equipment at Regional Engineering College, Rourkela which was completed in 1980 after getting due permission from my employer.

In May, 1978 I was selected as Management Trainee in Rourkela Steel Plant and started my career to the post of Executive Director (Projects) working in various departments like Design Department where I was entrusted to Carry out Design Engineering for New as well as Revamping of EOT cranes and other Handling Facilities. Subsequently I was selected for the in-house consultancy organization of SAIL where I was entrusted the work of preparing Study Reports, Feasibility Reports and Tender Specification as well as carrying detail engineering of various projects at different units of SAIL. In 1990 I was posted as Site in-charge for executing the new Slag Granulation Unit for Blast Furnace and Slab Caster at Rourkela Steel Plant as a part of Modernization of Rourkela Steel Plant. In 1996 was posted in the Steel Melting Shop of RSP as the Maintenance Head where I was responsible for the upkeep and maintenance of all equipment of the Steel Melting Shops. In the year 2006. I was transferred to Project Department as project manager to handle the oncoming Expansion of Rourkela Steel Plant where I rose to the post and Executive Director (Projects) and was responsible for the execution of various Projects during the Modernization of Rourkela Steel Plant, IISCO Burnpur and Bokaro Steel Plant (1990-96) as well as recently completed Expansion of Rourkela Steel Plant (2011-2015).

I am interested to engage myself and utilize the valuable experience gained by me during my working in Steel Authority Of India Ltd in various capacities so that they can be gainfully utilized in other organization for mutual benefit.
